

LEARNING & SHARING

YOUTH WORK IRELAND REGIONAL WORKSHOPS

Our Learning and Sharing Regional Workshops are a chance for young people, volunteers and staff from Youth Work Ireland Member Youth Services to come together, share their practice, learn from each other and have fun! The events are creative, interactive and take place in a positive environment through a youth work approach with music, food, art, games and activities.

This year the events will provide participants with the opportunity to be involved in our national campaign around the issues of Equality, There is a space for volunteers and staff to network, receive updates on national programmes and input into Youth Work Ireland's forthcoming Equality Policy. We will also hold photo shoots and auditions for young people who are interested in speaking at the Youth Work Ireland conference about their service's work on equality and their own personal stories.
